### Minutes of the Tue May 2, 2006

Meeting called to order at 7:05 pm There were 77 members and guests in attendance, followed by the pledge of allegiance introduction of new members and guests followed by the reading of the minutes of April 4<sup>th</sup> 2006 meeting and approval of minutes. Treasurer read the treasury report with \$2,209.88 in checking account after expenses.

Old business an update on the sharing of claims with Havasu Gold Seekers, Chuck Davis president of the Havasu Gold Seekers explained that he presented the Havasu Gold Seekers Board of Directors the item of sharing claims with the Mohave Prospectors Association. The Havasu Gold Seekers Board of Directors voted to table the issue until their next meeting which will take place sometime in the end of 2006 beginning of 2007 as we know more on the issue we will notify everyone.

The informational outing will be on may 21<sup>st</sup> rain date of may 28<sup>th</sup> volunteers are to be at Randy and Sharon Smiths at 10:00 am on Saturday may 20<sup>th</sup> to help setup for the outing if your setting up a booth please set up on Saturday.

The vice president Mike Medlin updated us on the metal detecting outing 8 people showed up and the metal detecting group did real well the found about 2500 nails and 500 tin cans we don't have to worry about flat tires in that area. We might want to polish up those nails and sell them to one of the developers.

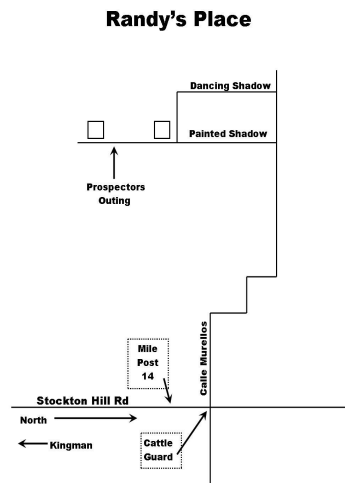

New business there was nothing to report nor did any member suggest anything its great to know that the officers are doing a great job everyone is happy with the job we've done so far. THANK YOU.

The meeting concluded with the monthly raffle and the meeting was adjourned at 7:57 pm.

### Gold Facts

Did you know that a Gold nugget the size of a pea can be hammered into a 100 square foot sheet with a thickness 1000 times thinner than a piece of paper!

Did you know that all the gold in the world that has ever been mined would fit inside a cube that is 55 feet by 55 feet by 55 feet!

Did you know that one ton of gold would fit approximately into one cubit foot!

Did you know that less than 2% of all gold mined is found in Gold nugget Form, the rest is called micron gold that you can not see with your eyes.

This gold must be extracted from rock chemically.

Did you know that each Gold nugget was made by God and each one is different and cannot be duplicated by man.
