Minutes Tue Oct 3, 2006

October 3, 2006 minutes, meeting called to order at 7:04 pm followed by the pledge of allegiance, introduction of new members and guests reading and approval of the minutes from September's meeting treasury report read by the treasurer Shirley Klafter \$1,760.00 in checking account after expenses.

Since no member was interested in the tromel and gold screw both items will be listed on eBay including the gold spear, the metal detector was purchased by a member for \$125.00 Thank you for your support.

Retta the gold lady will be our guest speaker next month some of our winter visitors missed out on her demonstration last time so next month will be a perfect opportunity to see her demonstration since most of our winter visitors will begin arriving this month. its always great to listen to Retta as she is a valuable resource of information we could always use information that will make our prospecting adventure mush more interesting.

Our guest speaker this month was Bob Tinker he developed a system to help us in any type of medical emergency, he explained that new medical laws prohibit doctors to share your medical information with each other and hospitals. Mr. Tinker developed a credit card size disc that will keep all your medical information available in case you ever become ill or injured and you can not speak for yourself this disc will be able to help doctors and paramedics treat you faster and know who to contact. If anyone who did not attend the meeting and wishes to know more about this new

An Ulcer Reversal

The age-old notion that stomach ulcers are caused by stress, spicy foods and other stomach irritants was officially debunked by a National Institutes of Health conference six years ago. By then, a consensus of doctors converted to the notion that most duodenal ulcers were caused by the bacterium *Helicobacter pylori* and could be cured with antibiotics. Turns out the new notion was another case of over-reaction.

Evidence gathered in the last six years shows that fewer than half the cases of stomach ulcers are caused by the bacterium, reports *The Washington Post*. The other major cause is now thought to be frequent use of aspirin or nonsteroidal anti-inflammatory drugs (NSAIDs), though the causes of at least 10 percent of cases cannot be explained, the newspaper reports.

HEY!!! DON'T FORGET THE CLUB OWNS MINING EQUIPMENT, THAT IS AVAILABLE TO ALL OF OUR MEMBERS TO USE. CONTACT PRESIDENT JERRY KLAFTER AT 928-757-3028 FOR AVAILABILITY AND TO RESERVE A TIME TO USE EQUIPMENT.
